Bench Mounted Options

All units include a unique, traceable serial number.

Select from the options below and more.

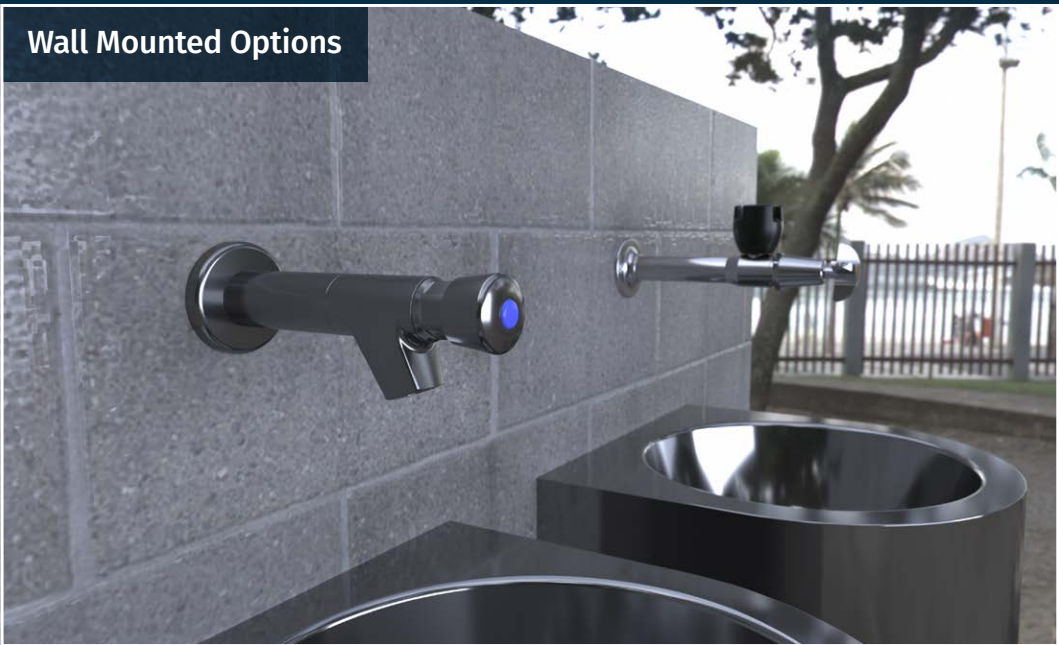

Timed Flow Options

The image displays four different faucet models with their respective timed flow options. Each faucet is shown with a circular graphic indicating its flow duration:

- 6 seconds**: A simple circular arrow graphic with the number 6 and the word "seconds" below it.
- 18 seconds**: A circular arrow graphic with the number 18 and the word "seconds" below it.
- 2 seconds**: A circular arrow graphic with the number 2 and the word "seconds" below it. The word "OFF" is on the left and "ON" is on the right of the number.
- Adjustable Timed Flow**: A circular arrow graphic with the text "Adjustable Timed Flow" in the center. The numbers 6, 18, and 20+ are arranged around the circle, indicating different flow settings.

Wall Mounted Options

The image shows two wall-mounted faucets installed on a grey stone wall. The faucets are black with a blue LED light on the handle. A black sink is visible in the foreground, and a black cup is placed on the right faucet. The background shows a tree and a fence.

The Stainless Steel Advantage

ZERO LEAD CONTAMINATION

Water quality not compromised.

NO GRIME BUILD-UP

Waterways remain clean and the quality and taste of the water is not distorted.

SMOOTH FINISH

Stainless steel provides an easy to clean surface and prevents the build-up of bacteria.

HIGHLY DURABLE

Strong material reducing the occurrence of dents and bends.

SMALL FOOTPRINT

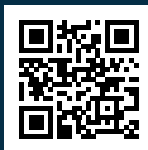

Stainless steel is 100% recyclable.

Premium Quality

To ensure 3monkeeZ® tapware withstands the rigors of any commercial application, our Guardian Tapware® range of products are manufactured from 100% stainless steel (S/S) and quality materials.

The clean, attractive appearance and premium qualities of stainless steel protect your health and the environment, making it ideally suited to modern fit-outs to provide a lifetime of satisfaction.
