Choosing your ideal Laboratory Tapware Solution is easy.

Fixed or Swivel

Laminar Flow Vandal Resistant Aerator

Tube Nozzle

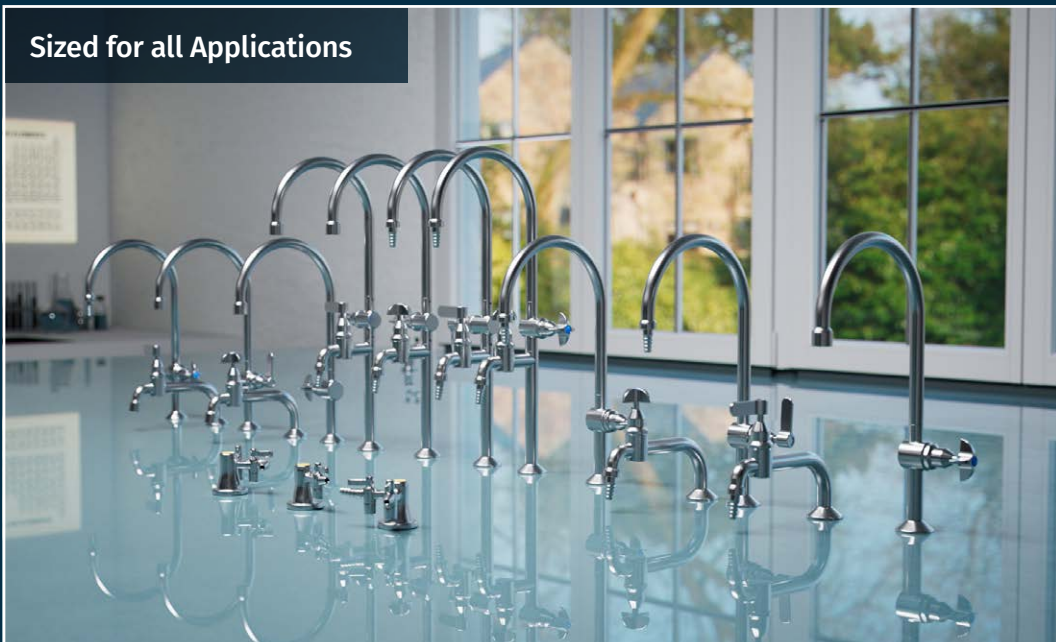

All units fully assembled and individually bench tested in

Fixed or Swivel, Single or Double, Aerator or Tube Nozzle.

Single or Dual Outlets

Sized for all Applications

Australia, and include a unique, traceable serial number.

The Stainless Steel Advantage

**GUARDIAN[®]
TAPWARE**

ZERO LEAD CONTAMINATION

Water quality not compromised.

NO GRIME BUILD-UP

Waterways remain clean and the quality and pH of the tap water is not altered.

NON CORROSIVE FINISH

Stainless steel provides an easy to clean surface and prevents the build-up of bacteria while resisting corrosion.

HIGHLY DURABLE

Strong material reducing the occurrence of dents and bends.

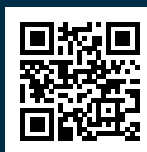

SMALL FOOTPRINT

Stainless steel is 100% recyclable.

DESIGNED FOR EDUCATION ENVIRONMENTS

3monkeez laboratory tapware is specifically engineered for school and tertiary education environments, delivering outstanding durability, safety, and versatility. Manufactured from 304 Grade Stainless Steel and completely lead-free, these fittings are designed to withstand the demands of daily use while maintaining the highest standards of hygiene. Each unit incorporates robust handles with a secure locking system and is supplied with two nozzle configurations to support a wide range of applications. Reliable, adaptable, and practical, this tapware represents the optimal solution for educational facilities requiring safe and long-lasting water fixtures.
