The SCRAP-S Range of sink waste arrestors are designed to effectively prevent food scraps and solid waste from entering the plumbing pipes and causing blockages. Available in both 304 Grade S/S and 316 Grade S/S stainless steel ensures durability and corrosion resistance.

The primary function of the sink waste arrestor, or scrap trap, remains the same: to prevent food scraps and solid waste from entering the drain and causing clogs in the plumbing pipes. By acting as a filter, it allows water to flow through while capturing solid particles in the basket. Then simply remove the basket and dispose of the collected waste into a waste bin.

Additionally, by using a sink waste arrestor, you can prevent solids from entering the grease trap. This is beneficial and reduces costs as it helps maintain the efficiency and effectiveness of the grease trap, which is designed to capture and separate grease and oil from wastewater.

Overall, the SSBW, SCRAP-C and SCRAP-V Range of sink waste arrestors provide an effective solution for preventing blockages, ensuring the cleanliness of your kitchen sink, and preserving the functionality of your plumbing system. The availability of different stainless steel grades adds to their durability and longevity.

SCRAP-S Range

Cast Stainless Steel Sink Waste Arrestors
Includes Fixed and Removable baskets. Available in 304 and 316 Grade

SCRAP-S-50	SCRAP-S-90	SCRAP-S
SCRAP-S-50-316	SCRAP-S-90-316	SCRAP-S-316

Under Sink Shut Off Valve

For use with SCRAP-S Range ONLY. Available in 304 and 316 Grade

SCRAP-V
SCRAP-V-316

Shut-Off Valve Range

Cast Stainless Steel Sink Waste Arrestors with Shut Off Valve
Includes Fixed and Removable baskets. Available in 304 and 316 Grade

SCRAP-C-50	SCRAP-C-90	SCRAP-C
SCRAP-C-50-316	SCRAP-C-90-316	SCRAP-C-316

Stability Brackets
For use with Scrap V

SCRAP-BRACKET-90

SCRAP-BRACKET-125

SCRAP-BRACKET-50

Complete Scraptrap® range available online.

Purchasing your Scraptrap® is easy.

Choose your size from 40mm - 125mm

All models include a fixed and removable Basket.

SCRAP-V, only for use with the SCRAP-S range

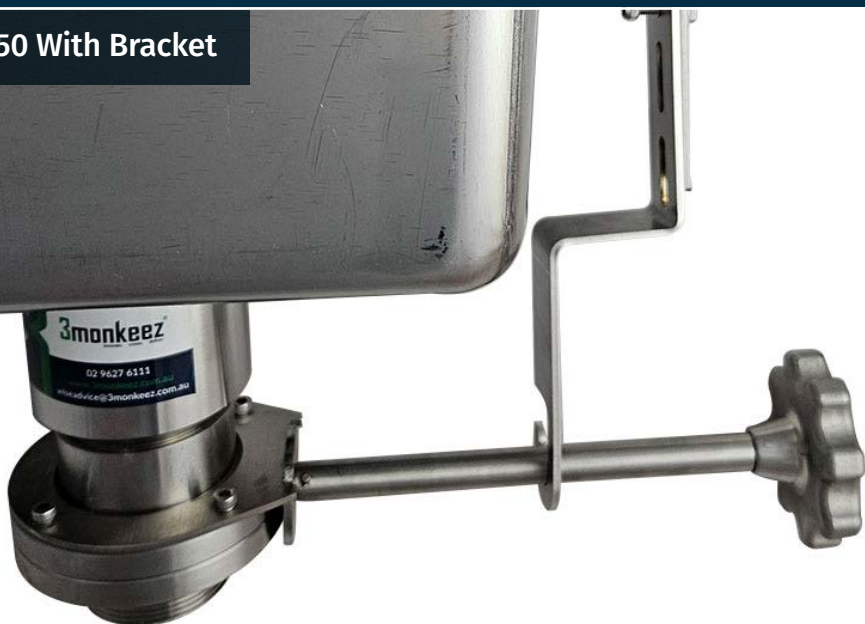

Choose from the options below.

SCRAP-C With Bracket

SCRAP-C-50 With Bracket

The Stainless Steel Advantage

ZERO LEAD CONTAMINATION

Water quality not compromised.

PROTECT WATERWAYS

Protect waterways by reducing pollution.

SMOOTH FINISH

Stainless steel provides an easy to clean surface and prevents the build-up of bacteria.

HIGHLY DURABLE

Strong material reducing the occurrence of dents and bends.

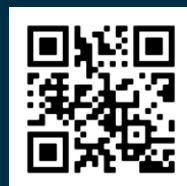

SMALL FOOTPRINT

Stainless steel is 100% recyclable.

Premium Quality

3monkeez® is a recognized leader in the field of trade waste management. Our comprehensive Scraptrap® range features straightforward yet effective designs that deliver optimal solutions for trade waste screening. By preventing debris from entering drains, our innovative designs contribute to environmental protection.

Each product in our industry-leading lineup is constructed from high-quality stainless steel, ensuring durability and functionality suited to withstand the demands of any commercial environment. We invite you to explore our extensive selection of in-floor and in-sink options, perfectly tailored for food preparation areas, and discover how you can implement an effective waste management solution today.
