Stainless Steel	SST636B
Chrome	SST636CH
Brushed Gold	SST636BG
Gunmetal	SST636GM
Matte Black	SST636MB
PVD Copper	SST636COP

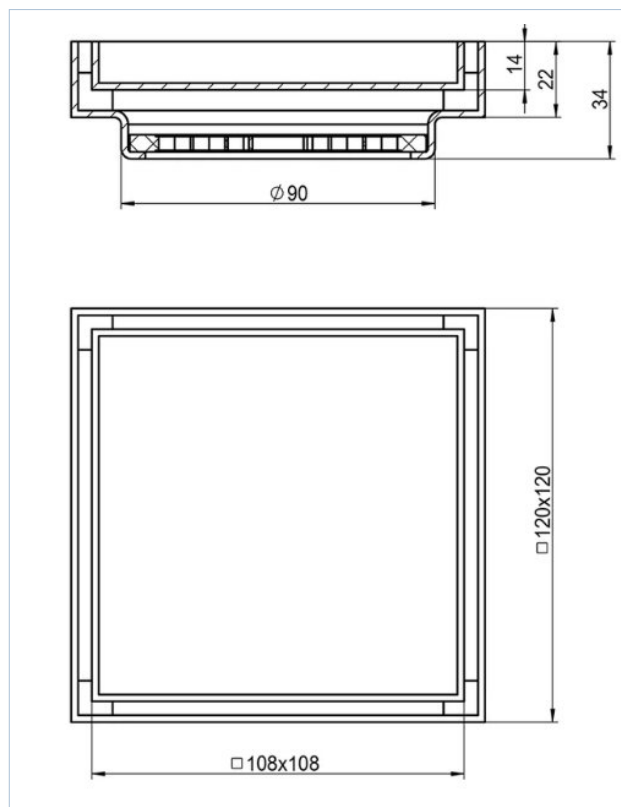

PRODUCT DESCRIPTION

The **SST636B** is a larger-format 316 stainless steel tile insert floor waste designed for premium wet area installations. Constructed entirely from grade 316 stainless steel, it delivers superior corrosion resistance for both indoor and outdoor use — including pool surrounds and exposed coastal environments.

The 120mm x 120mm grate accepts a 108mm x 108mm tile insert, creating a seamless, flush-to-floor finish that blends perfectly with your tiling. Suited to a 100mm drain outlet (Ø90mm body), it is ideal for commercial bathrooms, larger residential wet rooms, outdoor entertaining areas, and pool surrounds requiring a higher-flow drain.

Available in six finishes: **Stainless Steel, Chrome, Brushed Gold, Gunmetal, Matte Black** and **PVD Copper**. Backed by a 2-year warranty.
